ILEX AND MANY OTHER ITEMS IN QUANTITY

LINING-OUT STOCK IS OUR SPECIALTY

Wholesale Only

CAMELLIA JAPONICA, CASABLANCA

MEDIUM SIZE; ROSE-PINK. VERY NICE CORSAGE FLOWER

*To Plant Lovers Everywhere
and
Especially to Camellia Lovers*

BLACKWELL NURSERIES are wholesale growers of quality nursery stock and especially Camellias, Azaleas, Magnolias, Ilex and Gardenias. We have facilities for propagating large quantities of nursery stock and furnish our nursery customers and friends with only the best.

We hope that this book will assist you in selecting the plant material you want in your garden. This does not incur any obligation at all on your part. We are in the Wholesale nursery business only and make no retail sales at all. We feel that we are being of some service to your nurseryman as well as yourself in publishing this book. It is free, and we will be glad to send it without any obligation whatever to anyone who requests a copy.

May we suggest that you patronize your local nurseryman when you need plants. He is in a position to help you with your problems, since he knows all the local conditions. If there are varieties in this list that you wish to purchase, take this catalog to your nurseryman and ask him to order what you want from us.

If your friends would like to have a copy of this book, we will be glad to mail them one. Additional copies to each request may be had for 25c to cover mailing and postage.

**Camellia Sasanqua
Texas Star**

**Camellia Japonica
Debutante**

**Magnolia
Grandiflora**

ALL ABOVE ARE ONE-GALLON CONTAINERS

**Camellia Sasanqua
Daydream**

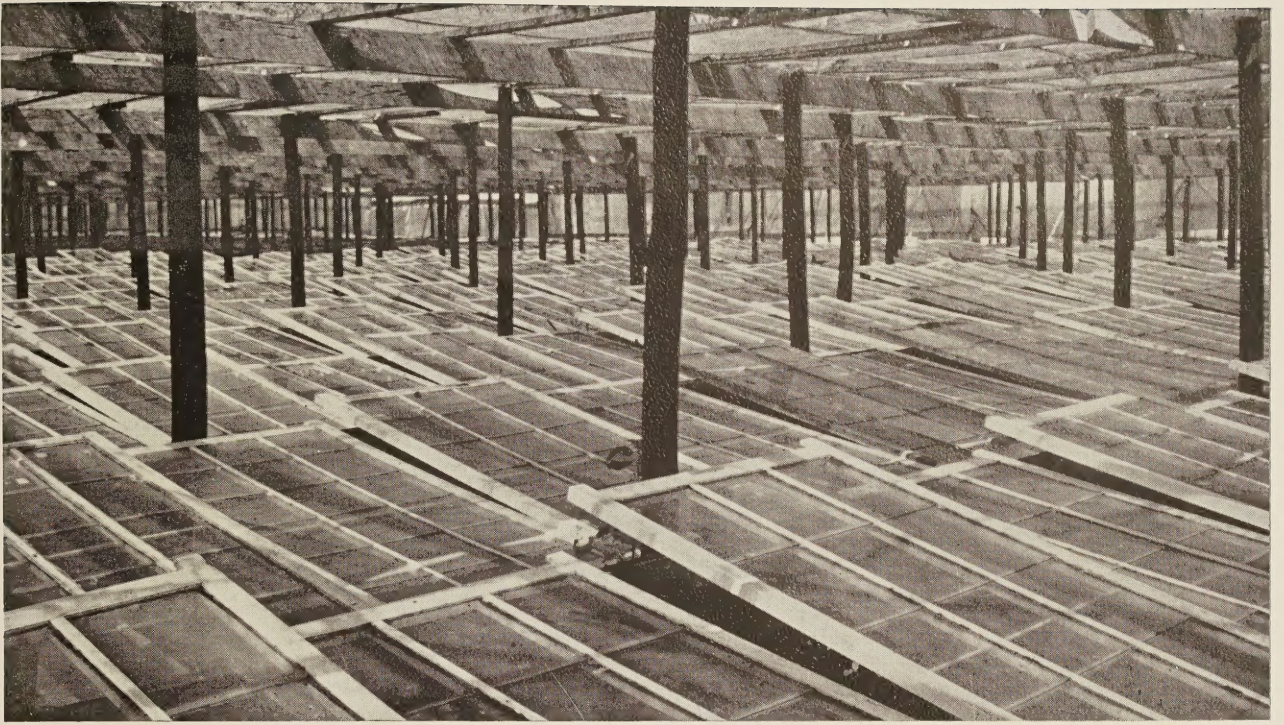

**Camellia Sasanqua
Texas Star**

**Camellia Sasanqua
Cleopatra**

ALL ABOVE ARE ONE-GALLON CONTAINERS

CONTAINER-GROWN STOCK

Our container-grown stock can be moved at any time of the year, since the roots are not disturbed in the least. Blackwell Nurseries use only the best soil mixture to grow these plants, and you are assured of getting only strong, sturdy, healthy plants that will grow off fast for you. Ask your nurseryman to show you the advantages of using our container-grown stock before and after the regular planting season. You will be well pleased with the results.

Top picture is part of more than 4000 hotbed sash where we grow our Azalea liners. All the beds are equipped with a hot water heating system for winter protection. This is one reason nurserymen prefer our liners. Bottom picture shows a partial view of thousands of our Camellia liners grown in one of our lath houses. We use just the right soil mixture, which assures our customers of getting the best possible liner.
